ALASKA

If you want to have the feeling our grandfathers had when they looked out across a country that was new and uncharted, come to the beautiful country of Alaska! Alaska brings you back to a time where you could walk for a week and never see another person! Only Grizzly, Moose and Caribou! Alaska will test you; tease you; showing you a flash of a Moose antler, a glance of a Dall Sheep climbing up a mountain or a Grizzly wandering over the mountain moving a boulder like it was nothing. If you want to experience this feeling, take a look at some of these hunts. You will be glad you did!

SPRING BROWN/GRIZZLY

Catch a charter from Shishmaref, Alaska. You will spend the next 10 days lodging in cabins, with electricity and home cooked meals. These early spring hunts begin between April 15 and May 3 when Grizzlies pop out of their dens after a long Alaskan winter looking for food. Be prepared to travel on snow machines, and glassing some of the most beautiful hair you have ever seen.

CARIBOU

From Anchorage you will fly to the edge of the Bering Sea on the southwest side of the Seward Peninsula where Nome lies as a vital hub for hunting and fishing in this wild part of the world. This adventure begins with an air charter to camp set up with primarily cabins, electricity, and home cooked meals. With Boone and Crockett bulls taken every year, we believe this area will produce some excellent animals. Always wanted to hunt Grizzly? I would highly recommend an upgrade for Grizzly while you have reached the end of the world as the big bear loves to come to gut piles of big Caribou.

MOOSE

Alaska has a short Moose season: September 1-7 or September 8-14. Birch bark calls that bring wild, crazy-eyed bulls frothing at the mouth, looking for love. We have all watched bull Moose coming in to the grunt call of a love sick female dreaming of love in the lake. Next time grab your dream and watch that bull come to you as your rifle readies for a shot that will put a trophy on the wall. We offer one of the very best Moose hunts available. Success has been close to 100%. These hunts can be combined with Grizzly, Caribou, Wolverine and Wolf, all for a trophy fee. Experience the **GRAND SLAM** of the Artic.

MARCO POLO SHEEP

Kyrgyzstan is home to the Tien Shan Mountains and an open border to China. In these mountains the Marco Polo and Tien Shan Argali of China flourish. China does not allow hunting and only a limited amount of is allowed in Kyrgyzstan. J and M Safaris works with one of the top outfitters in the country owned by a Provincial government judge. We do everything by the book so your hunt is one to remember. I have a cancellation hunt available for February of 2017 for \$22,000. Can possible be taken in November of 2017. Give us a call. Ibex can be taken for a trophy fee as well!

TIBURON ISLAND DESERT SHEEP

Desert Sheep hunting is in full swing with a limited amount of high quality sheep hunts remaining. If you are looking to finish your grand slam, give us a call! We know where the big rams are! Fly to Hermosillo where you are taken to the hunting area for the hunt of a lifetime. All paperwork, gun permits, CITES export permits, license and plugs are done the right way! Give us a call - you will be glad you did.

ROCKY MOUNTAIN BIGHORN SHEEP

J and M Safaris, known to offer the very best in Trophy Hunting worldwide, is offering a 14-day trophy Rocky Mountain Bighorn Sheep hunt in British Columbia's Kootenay Mountains. This hunt has been 100% for the last 5 out of 6 years with two (2) book rams being taken. There is only 1 sheep tag per year! Be prepared to hunt hard and shoot straight. This is a special tag at a reasonable price - finish that Grand Slam NOW!!

SPANISH IBEX

J and M Safaris is lucky to hunt with one of the oldest Outfitters in the country. Historical settings full of tradition with fine cuisine. You will find the trophy animals that only we can offer a hunter. Bring your wife on this hunt. She can tour the countryside with shopping and wine tasting as well as tours of the various setting for your hunt. She will have the time of her life as well!

LEOPARD

Laws on Leopard are changing; I suggest that if you have not taken one, NOW is the time! South Africa to date has NOT cleared with SANBI for export permits so the ban is still on. Zimbabwe is open with the USFWS giving them one (1) more year to finish their studies or WHO KNOWS what the situation will be. Namibia and Tanzania are to my knowledge the same. The key is the CITES import permits to your country. If the past tells the future, CITES will be pushed to lower the export permits from the countries that hunt Leopard as before, making them much costlier! Give us a Call!

LION

As I predicted last year, Lion hunting has changed. J and M safaris has aligned with several top outfitters that have areas with strong science programs to back up the hunting quotas for the areas in which they hunt. Our areas that received hunting import permits last year are already booked for this year; however I do have one on quote available for 2018. In Zimbabwe I have 2 Lion hunts, one can be combined with a Big 4 and the other can be a Cape Buffalo and Lion combo. Hunting will not go away but it will get more expensive!

ELEPHANT

Elephant hunting was **VERY** good last year with some very good bulls taken. I have several tags in a special place for **Big Bulls**; I hunted here last year personally and will go back for **BIG Buffalo**. J and M Safaris is known to offer the best Elephant hunting in Africa. Give us a call we have a limited amount of tags available in an area you **WANT** to hunt!

CAPE BUFFALO

With 45 miles of river bordering a famous national park, this area has it all. While hunting here I witnessed some of the biggest Cape Buffalo

I have ever seen in a **FREE** ranging environment. I personally saw Buffalo in the 48 inch range with heavy bosses like the one in the picture. If you like to hunt trophy animals 1x1 in a truly **WILD** place **THIS IS IT!**
