

USFWS Approves

J and M Safaris

The hunting communities' conservation efforts have proven that populations of Lions that are hunted with a quota and protected from poaching will prosper. These efforts are echoed by the USFWS announcing they have added Lion imports from Zambia and Zimbabwe to the already approved areas of South Africa. Without the dollars that hunting brings to these areas, there would be no animals. It is the combined efforts of outfitters and hunters that maintain the areas that keep the Dark Continent wild.

ZIMBABWE SAVE VALLEY

We have only a couple of Lion hunts available in our hunting areas. With the approval of Lions from Zimbabwe, the good areas are booking fast!! REMEMBER Lions must be hunted and imported by December 31, 2018.

and fishing around the world!

USFWS Approves

J and M Safaris

ZAMBIA

Luangwa Valley Lions are historically some of the largest and the most successful Lion hunts available today. These are East African style hunts in deep wilderness like the old days. **REMEMBER** Lions must be hunted and imported by December 31, 2018.

SOUTH AFRICA

J and M Safaris only books hunts in wild managed or wild free ranging areas in accordance with USFWS documented and approved importation rules. **REMEMBER** Lions must be hunted and imported by December 31, 2019.
