AFRICA AS IT WAS

I had the pleasure to go back in time in September of this year to one of the most interesting places I have ever been to. It has a wild open border to very special place with the only interruption being a river running through it. This is a hunt in every sense of the word; walking miles along a river; and glassing from ridges in a country that seems to go on forever.

This is one of the biggest Kudu I have ever taken. We earned him in the truest sense of the word. If you want to hunt with the chance at huge Kudu, this is the place!

CAPE BUFFALO

This area has 45 miles of river bordering a famous national park. While hunting here I witnessed some of the biggest Cape Buffalo I have ever seen in a **FREE** ranging environment. I personally saw Buffalo in the 48 inch range with heavy bosses like the one in the picture. If you like to hunt trophy animals 1x1 in a truly **WILD** place **THIS IS IT!**

AFRICA AS IT WAS

PLAINS GAME

The Plains Game in this area are some of the best I have seen. I took this free range 30-inch Nyala. I watched a monster Waterbuck slowly walk in front of me knowing there was no quota. These are all **FREE** ranging animals - **NO** fences!

DANGEROUS GAME

As you can see this area has phenomenal Buffalo. Pictured here is a magnificent Elephant taken in this area. We will have one (1) Leopard permit available for the 2017 season and with the tracks I **PERSONALLY** saw in September, you could take a monster. If you consider yourself a hunter and want to see Africa up close and personal, **THIS IS IT. CALL** now, it will **NOT** last!

LION

I have two Lions on quota in an area that is open to a national park. We just received an import permit for this area from USFWS. This hunt is in South Africa and is one of the FEW places in Africa that will be importable. It is NOT a fenced hunt but a true WILD hunt as the USFWS directive so eloquently stated. J and M Safaris has aligned itself with the highest Lion populations that are WILD and FREE ranging. Be prepared for this hunt - it will be hot, dusty and 1 x 1.

RHINO

We have a cancellation for a FREE ranging White Rhino. This is a 1 x 1 hunt on foot, in a very special area.

This may be the last time there is an opening to hunt as the next 3 years are already booked.

ELEPHANT

I have ONE tag for a trophy bull in the Gonarezhou area for late February or early March 2017 when the Marula trees are full of fruit - a crazy time of the year where intoxicated Elephant lose all control! This is an area where 90 pound + bulls have been taken. I fully expect that the Gonarezhou area will receive USFWS import permits. Pick your area wisely and go Elephant hunting NOW while you still can. The prices will only get higher!

SABLE

I have a great opening for a Sable hunt in Zimbabwe. This is a 7- day, 1x1 **TROPHY** hunt in an area that is proven to take 40"+ Sable. If you have always wanted to hunt a **FREE RANGING** Sable, get ready for the hunt of a lifetime! I have a special price for this hunt!! Let me know on this one right away!! We are also booking 2017 for Sable/Buffalo combo hunts.

TIBURON ISLAND DESERT SHEEP

I have done many hunts on this Island, long known for big sheep. It is not a place for the weak at heart. If you want a ram in the 175+ range you will have to hunt, hike, climb and push yourself to kill a big sheep. Every time you look at him on the wall, you will know it was you against him and **YOU WON!!!!** I have a special option for this hunt give me a call and let's talk.

I have over 30 years of experience placing hunters with the best outfitters in the world. I do not sell hunts; I put top-notch outfitters with hunters looking for a type of hunt or animal. I insist on outfitter and hunter contact to put everyone on the same page. **NO SURPRISES!** In the end this is hunting!
